

What is The Towers Program?

A fantastic question! To put it simply, it is your very own individualized care plan, tailored to meet *your* specific needs.

Our philosophy is to provide services that allow individuals to remain as independent as possible in the most cost effective manner.

We've outlined these details for you in the field below. Necole Bynum, Independent Living Wellness Director will be happy to consult with each resident and family to arrange a tailored care plan to suit each individual's needs!

For more information, please contact our front desk receptionist or nursing staff.
